

Dear Health Care Professional:

Due to recent outbreak events, Merck would like to notify customers that currently Merck has adequate supply of M-M-R®II (Measles, Mumps, and Rubella Virus Vaccine Live) to support both private and public sectors. Merck continues to monitor market demand to plan for the evolving situation.

Customers may continue to order M-M-R®II directly from Merck or through a Merck Authorized Distributor. Merck strongly encourages customers who order through a wholesaler or distributor to proactively contact their wholesaler/distributor to discuss changes in future vaccine needs 10-14 days in advance to maintain supply continuity.

We thank you for your business and commitment to Merck Vaccines.

If you have any questions, please contact your Merck account representative or call the Merck Vaccine Customer Center at 877-VAX-MERCK (877-829-6372).

Sincerely,

Merck Professional Services
